

HOLD'S - BLACK

MB11.012

The Elite HOLD'S tourniquet holster is carefully designed to hold any tourniquet currently available. The elasticated sides and a long velcro strap cover ensure the required expansion and a snug fit for tourniquets of any size. Can also be used to hold other operational accessories for example touches, knives, sanitary materials, wedges, etc.. The strap webbing on the back mean that it can be anchored to other bags, packs and vests that support the MOLLE universal attachment system.

Features

- Will hold any tourniquet currently available on the market.
- Elasticated sides both provide expansion and ensures contents are held snugly.
- Long covering flap with Velcro fastener allow tourniquets of different lengths to be accommodated.
- Webbing strap on the back for anchoring to packs, bags and vest using the MOLLE system.
- Belt loop.
- Hypalon pull tab for easy grip opening even with gloves.
- Can be used to hold other items such as touches, bandages, razors etc...
